

To whom it may concern

Certification of RoHS - and WEEE - Directive :

We certify :

Bayer's thermoplastic resins

**Apec, Bayblend, Desmopan, Durethan, Lustran, Makrolon, Novodur ,
Pocan, Texin and Triax**

and Bayer's films **Bayfol** and **Makrofol**

comply with the requirements of
the EU Directive **2002/95/EC** on the restriction of the use of certain
hazardous substances in electrical and electronic equipment
(called RoHS-Directive) and
EU Directive **2002/96/EC** on waste electrical and electronic equipment
(called WEEE-Directive) .

Compounds of cadmium, lead, mercury and hexavalent chromium and
flame retardants PBB and PBDE have not been intentionally added for the
production of all Bayer thermoplastics and are not known to be present.
